

# WHEEL LOADERS

# OUR MISSION

GRYB wants to fundamentally transform the material handling industry into a customer driven experience, fueled through the needs and challenges of the global market.

Our mission is to develop the right product through the combined expertise of those who build and those who use. Together, we create solutions to support industries that are built to last.

GRYB is the very core of GRYB International. It is through the success of this business that the group went on and expanded into various other brands.

# QUICK COUPLER

Get unparalleled versatility and efficiency with the hydraulic GRYB Loader Quick Coupler, a robust and high-performance attachment designed to streamline your material handling operations. Our quick coupler stands out in the market, offering unparalleled strength and durability, ensuring a reliable and long-lasting solution for your equipment.

With GRYB, you have the flexibility to choose virtually any combination of compatibility (female attachments) for a seamless integration with your machinery.

Our quick coupler is built to withstand the toughest working conditions, providing you with a reliable and durable solution for your material handling needs.

**AVAILABLE FOR 14 TONS LOADER AND LESS**

## BUCKET LOCK

Our bucket lock has a simple design, ensuring a hassle-free maintenance. Additionally, our bucket lock allows for easy removal of the bucket from the machine, providing unparalleled convenience during equipment adjustments or replacements.

# BUCKETS

## GENERAL PURPOSE BUCKET

Optimized opening angles.

High tensile steel wear parts.

Available in multiple widths and capacities.

Interchangeable bolt-on blades.

## LIGHT MATERIAL BUCKET

Increased loading capacity.

Protective lining for a quick hitch.

Interchangeable bolt-on blade included.

Bolt-on heels included.

## SIDE DUMP BUCKET

Dump angle up to 120°.

Bolt-on blade with recessed nut included.

High-capacity.

Shock absorber cushions.

HD hydraulic cylinder.

Left-hand or right-hand dump.

## HIGH DUMP BUCKET

Damping pads.

Rubber pads on each sides acting as shock absorber.

Oversized rod for intensive work.

Optional bolted-on blade.

Dumping angle of 120°.

## WOOD CHIP BUCKET

Oversized capacity for light materials like woodchip and mulch.

High-strength steel reinforcements under the bucket to reduce wear.

## HEAVY DUTY ROCK BUCKET

Spill Guard protect the quick coupler.

Protection of the machine with rock kickers.

Several knife configurations available.

Vertical protectors prolong the life of the bucket.

## **SKELETON BUCKET**

Adjustable distance between tines fitting your needs.

Ideal for sorting and recycling materials.

## **STOCKPILE BUCKET**

High volume capacity.

Ideal for handling light materials and bulk materials.

## **4 IN 1 BUCKET**

Digs, levels, handles and sort.

Better precision and control.

Maximizes the efficiency of your attachment.

Improves safety on construction sites.

Increases machine productivity and versatility.

Combine use of a grapple, the strength of a standard thumb, and the functions of a ditching bucket.

## GRAPPLE BUCKET

Robust grapple design.

HD hydraulic cylinder.

Filling and dumping at an optimized angle.

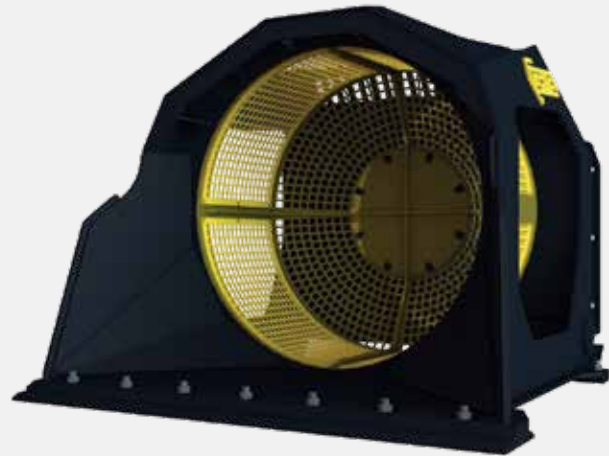

## SCREENING BUCKET

Ideal for recycling materials.

Adjustable sieve opening from  
1/4" to 6" inches.

Rotates on both sides, depending  
on the model.

# **SPECIALTY PRODUCTS**

## FEMALE LUGS

With surplus for all bucket or chassis designs.

Various compatibilities are available.

## FORK RACK

Compatible with hydraulic and mechanical systems.

Different fork formats, thickness, width and depth available.

Optional hydraulic positioning.

A wide variety of models and several sizes are available.

Optional heel and back rest available.

Side shifting model available.

## FORKLIFT MAST FOR LOADER

Custom made to fit your exact needs.

High visibility two stage mast.

Side shift supported by track rollers.

16" side shift (8" per side).

Standard single acting lift cylinders - optional double acting.

Custom made back rest.

Side tilt available in option.

## JIB BOOM

Capacity-extending stick is custom made, to handle any kind of job you have.

An optimized design offering visibility and safety compared with lift attachments.

## EXTENDABLE JIB BOOM

Includes all the features of the standard jib boom.

Increases construction sites' safety.

Optimized design allows visibility and safety compared to lifting with bucket.

An arm extension for hard-to-reach places.

Can extend up to 14 feet in length.\*

\*GRYB offers customizable products, adapting your new attachment to your needs.

## COIL RAM

Custom length and capacity to fit your exact needs.

Can be installed directly on the machine or with different coupling systems.
